

Showcase Checklist & Support Materials

After notification of registration from BCTC this form and support materials can be mailed anytime, but must be postmarked / mailed no later than August 31, 2009

Please be advised that ALL communication from BCTC will be sent to the contact person identified on your online registration form submitted. It is up to the contact person to forward and share information with others in their group or support networks.

Artist Information: (Please fill out 1 checklist with each support material package sent)

This checklist and support material is for the following artist or group:

Artist / Group or Company (*Showcase Applicant*)

Application Checklist:

Support Material (CD's and DVD's Only)

- Theatre, Dance and Variety submissions **must** send professional quality DVD of the proposed show to tour.
- Music submissions **must** send the most recent audio recording. This can be a CD or DVD. Music applicants are strongly advised to include a DVD of their show in performance. (not promo or music video) as it gives the selection committee an opportunity to see you as well as hear you and that's important.
- Label all support material with the artist or group name and identify the contents.

Because of the number of submissions, the jury will likely review a short selection of your DVD and/or audio recording. Please identify no more than three (3) tracks or two minutes of a DVD you would like reviewed.

Promotional Kit

- Ideally a one sheet or small promo kit that should include biography, press quotes or reviews and show of good graphics that could be used by presenters for posters or fliers.

Technical Information

- Attach short technical rider including sound, lighting, back line, flooring, and stage plot that would be used for touring. This is **not** your technical requirements for showcase. We assume that technical requirements for showcase would be similar and generally more flexible.
